DOCUMENTARY

THE SONS OF BUENAVISTA

In 1999, Wim Wenders released his documentary Buena Vista Social Club and set off a Cuban music craze. Now the Club comes alive again in Amsterdam with this vibrant collection of live performances by the actual musicians that created a global stir with the infectious rhythms of Cuba. This incredible concert by an all-star cast of Cuban musicians, includes the original Buena Vista vocalist Pio Leiva, in one of his last appearances, supported by the red hot Chiki Chaka Girls plus more! A sheer delight – New York Post
